**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want more competition in the broadband market. I had ATT for years and was frustrated by their poor service and lack of quality internet and phone.

I want the FCC to side with consumers so there is more robust competition and lower prices.

Have you checked with other countries and the speed and cost of broadband services? We are far from the lowest prices and have slower speeds.

WE need more competition so the prices will fall and the service will get better.

I live at the end of the service line and coverage is sometimes not top quality.

And last but not least broadband is critical for my business. I have to have good broadband so I can serve my clients and customers.

Please, keep the competition. Huge conglomerates, are not good for competition and listening to Them is not my best interest.

Thank you for listening to the small business owners.
